Dear Andrew,

Thank you for your contribution of New Kitchen Cabinets, Wardrobes, and Vanities having a value of \$10,400.00 to help Habitat for Humanity Canada. We very much appreciate the assistance and work of all your employee's who helped make this donation possible. Without our donors we could not achieve our vision of a world where everyone has a safe and decent place to live.

Through our work, we've seen incredible things happen when people build a home. But even more incredible is seeing how a home builds people. Children living in suitable housing do better in school, building learning and social skills. People who spend less on rent can spend more on other necessities like childcare, utilities and food, building the well-being of their families. Safe, well-maintained homes improve living conditions, improving the health and outlook of people of all ages.

For people to become everything they can be, they need the right place to become it – home. Your support is not only an act of generosity – it is an investment in our communities and in addressing the issue of affordable housing in Canada today.

With each new home, Habitat comes one step closer to our goal of eliminating poverty housing, one house at a time; however, our passion and determination alone is not enough to break the cycle of poverty. It is through generous donations, of both time and money, that we are able to make the dream of home ownership a reality for so many deserving families.

Again, thank you for your contribution and for making our cause your own – because of you we are able to continue to offer a 'hand up' to those less fortunate. Your contribution today not only helps support a new home, but also a brighter future.

Yours in partnership,

Stewart Hardacre  
President and Chief Operating Officer  
Habitat for Humanity Canada
